The BS 7671:2008 Requirements for Electrical Installations was issued on 1st January 2008 and is intended to come into effect on 1st July 2008.

Short guide to the 17th edition of the Wiring regulations

...

The IEE Wiring Regulations (BS 7671) are the national standard to which all domestic and industrial wiring must conform. A new edition of the "Wiring Regulations" - the 17th Edition - will be published in January 2008. The 17th Edition reflects significant changes to both the technical content and structure of the book.

IEE Wiring Regulations 17th Edition

Any design to the 17th Edition of the IEE Wiring Regulations BS 7671 must be primarily concerned with the safety of persons, property and livestock. All other considerations such as operation, maintenance, aesthetics, etc., while forming an essential part of the design, should never compromise the safety of the installation.

Wiring Regulations: Overview of BS 7671:2008

Now that the 17th Edition of the IEE Wiring Regulations are planned to come into force in 2008, and the Draft for Public Comment (DPC) has been and gone, the UK electrical industry will have to wait to see what changes are finally published, but the rationale is mainly to do with harmonisation of the document with European standards.

BS7671 : 2008, 17th Edition Wiring Regulations

The actual full term used in the latest wiring regulations, the 17th edition, is "Safety of persons, livestock and property against dangers and damage which may arise in the reasonable use of electrical installations" The editions of the wiring regulations are updated when the 5th supplement or amendment is due.
