5th Grade Matter Study Guide

Matter - SOL 5.4 - Science Study Guide Matter is anything that has mass and takes up space. All things, living and dead, are made of matter. What is matter? All matter, regardless of its size, shape, or color, is made of particles (atoms and molecules) that are too small to be seen by the eye. There are more than 100 known elements that make up all matter. The

Matter - SOL 5.4 - Science Study Guide

Density is the concentration (amount) of matter in an object, or the amount of matter in an objects volume. Density tells us about the compactness of a material and is determined by how close together the particles are. At a 5th grade level you need to compare objects by their ability to sink or float in water.
