A History Of Graphic Design

Graphic design is the practice of combining text with images and concepts, most often for advertisements, publications, or websites. The history of graphic design is frequently traced from the onset of moveable-type printing in the 15th century, yet earlier developments and technologies related to writing and printing can be considered as parts of the longer history of communication .

History of graphic design - Wikipedia

Graphic design as we know it today really started developing in the modern era, roughly the late 1800s up until the end of World War II. While the 19th century was more about technological advancements and new capabilities, the modern era was about learning how to exploit these advancements for more artistic aims.
