This Airguide hygrometer probably dates from the 1950s. It uses a metal-paper sensor coil directly connected to the indicator needle. The coil consists of a salt-impregnated paper strip attached to a metal coil. As the paper strip absorbs or releases moisture it causes the metal coil to wind/unwind, much like a bimetallic thermometer coil.

## **(with Pictures) - wikiHow**

Mount your barometer where it is easy to see and adjust. Call the weather service, the airport or a news outlet to obtain a current barometric reading. Turn the adjustment screw, if you need to do so, to set the barometer to the weather service barometer reading. Check to see whether your personal barometer has two needles.
