The power supply is on the right side, the amplifier is on the left, and a steel wall separates them. The result is music that will make you dance, with a quiet you can feel. You can build a great sounding stereo power amplifier. Just start with the GT-102 kit, a few hand tools, and a little bit of time.

### You Can Build the GT-102 Stereo Power Amplifier Kit

Most of our great amps are available in kit form at substantial savings due to the extensive amount of time involved in the point-to-point hand wiring. The cabinets come completely finished and the professional looking faceplates and logo assure your amp will look as good as it sounds. Most kits have step by step instructions to guide you through the assembly and wiring of top quality components.
