By Susan T Fiske Social

Professor Fiske's research addresses how stereotyping, prejudice, and discrimination are encouraged or discouraged by social relationships, such as cooperation, competition, and power. The research begins with the premise that people easily categorize other people, especially based on race, gender, age, and class.

Susan Fiske - Wikipedia

Prejudice, Discrimination, and Stereotyping. By Susan T. Fiske. Princeton University. People are often biased against others outside of their own social group, showing prejudice (emotional bias), stereotypes (cognitive bias), and discrimination (behavioral bias). In the past, people used to be more explicit with their biases, but during the 20th century, when it became less socially acceptable to exhibit bias, such things like prejudice, stereotypes, and discrimination became more subtle ...
