The cost of these inspections on a Cessna 150 or 152 in good condition range from a low of about \$500 to a high of about \$1,500. If the inspection uncovers serious problems, the cost to repair it can easily exceed the value of the airplane. While car parts are quite cheap and plentiful, airplane parts are in limited supply and very expensive.

NOTE: This is only a guide and should not be considered FAA approved data for 100 hour or annual inspection checklist. Consult CFR 43 subpart D, for scope and detail of items to be included for 100 hour or annual inspections. This checklist is not exhaustive and does not supersede Manufacture's publications and is up-dated periodically!

100-Hour/Annual Inspection Checklist (GA)

o My Cessna 140 has an O200A out of a 150. I have been through the prebuy inspection and several annuals and feel that I do have some knowledge regarding these engines, plus I have LOTS of experience with engines in general beginning with growing up in my Dad's auto repair shop and being a car nut ever since.
