Construction Contract Claims, Changes, and Dispute Resolution

Construction contracts are chock-full of notice requirements. Most courts take these notice provisions seriously: no notice, no claim. Contractors should familiarize themselves with these from the outset of the project. Any time a delay is encountered, send a project delay letter to the GC or owner immediately.

Construction Delay Claims: Types, Claims, and Defenses

The contract provided that any claims must be asserted within ten days of the time the event which gave rise to the claim occurred. According to the contract, failure to do so would result in a waiver of the contractor's claim. Additionally, once the claim was submitted, there were additional steps required of the contractor to substantiate ...

Change orders can be issued for a base contract's work scope or not include a proper scope of work at all. They can include excess charges or improper price reductions for substituted work or materials. Change orders can stack up fast, and fraud can breed quickly in the chaos. This can even occur before actual construction even begins.

Construction Fraud: Common Issues and How to Combat Them

It is the purpose of this program to equip both Government and industry representatives with the knowledge necessary to secure the greatest relief — or to suffer the least amount of harm — from construction contract changes, whether they be consciously ordered or result from uncontrollable circumstances.

Changes and Claims in Government Construction Contracting

Construction disputes that arise mostly come down to money and the flow of money, where payment is the principle problem. The construction industry has its own laws to assist on payment issues through the Construction Act, providing payment rights and the right to adjudication, even if there are no contract clauses.

Construction Disputes for Construction Contractors

In construction "something" is usually additional compensation for work claimed to be extra to the contract or an extension of time for completion or both. What distinguishes a claim from a change is the element of disagreement between the parties as to what is due or whether or not anything is due.

Construction project claim management

The contract's language will provide the rule to decide, and parties will negotiate a change order, or file a claim, to decide how the facts fit the rule. This is yet another reason to document events and their consequences during a project. If I'm delayed can I recover my extra costs (a.k.a. damages) under the force majeure clause?

COVID-19: Delays and Force Majeure in Construction Contracts

Claims commonly arise between the parties to construction contracts. This can be as a result of problems such as delays, changes, unforeseen circumstances, insufficient information and conflicts. Claims might be made for things such as loss and expense, extension of time and liquidated damages.

Contract claims in construction - Designing Buildings Wiki

A change-in-law provision is a common contractual provision that may allow for additional time, money or both if there is a change to a federal or state law, executive order or other governmental action during contract performance.

COVID-19 and the Construction Industry: Looking Beyond ...

Construction contracting businesses have the second-highest bankruptcy rate of any type of private business. Things could be going great, but one unpaid change order, a late payment, a costly rework, or an unanticipated legal claim has the potential to derail your progress and leave you

grasping for the remains of your company.
