In 2008, the Project Management Institute issued The Standard for Program Management—Second Edition. The second edition is a significant improvement over the first edition that was published in 2006. Detailed changes are noted in Appendix A to the standard, but in general, this is a new document, not merely a revision.

Business change management using program management

Many organizations attempt to manage their programs as if these were projects. But the processes of managing programs and managing projects demand different sets of skills and competencies. As a result, those that use project management to implement programs often fail to achieve their expected results. This paper examines nine factors that can help organizations more effectively manage their ...
