Modern money cannot be understood separately from modern finance, nor can modern monetary theory be constructed separately from modern financial theory. That's the reason this course places dealers, in both capital markets and money markets, at the very center of the picture, as profit-seeking suppliers of

economics and finance are in reality more driven by liquidity and money hierarchy than fundamental values. This course has given a very practical perspective on how the entire system evolved. The economics and finance they teach in schools need to come over the assumptions of perfectly liquid markets.
