Science as a creative quest. Indeed, scientists themselves describe science not as a set of facts and vocabulary to memorize or a lab report with one "right" answer, but as an ongoing journey, a quest for knowledge about the natural world.

How creativity powers science | Science News for Students

In *Exceptional Creativity in Science and Technology* editor Andrew Robinson gathers together a diverse group of contributors to explore this progress. This new collection arises from a symposium with the same title held at the Institute for Advanced Study (IAS), in Princeton. Organized by the John Templeton Foundation, the symposium had as its chair the late distinguished doctor and geneticist Baruch S. Blumberg, while its IAS host was the well-known physicist Freeman J. Dyson--both of whom ...
