Create your GIS in a couple of minutes using a web browser. Upload your geodata. Make an unlimited number of web maps. Share your geodata with friends and colleagues from any part of the world.

NextGIS | Открытые геотехнологии

QGIS Server provides a web map service (WMS) using the same libraries as the Quantum GIS (QGIS) desktop application. Maps and print templates created in QGIS desktop can be published as web maps simply by copying the QGIS project file into the server directory. The resulting web maps look exactly the same as in the desktop.
