Hilbert's name is given to Infinite-Dimensional space, called Hilbert space, used as a conception for the mathematical analysis of the kinetic gas theory and the theory of radiations. Richard Courant (1888 - 1972) obtained his doctorate at the University of Göttingen in 1910. Here, he became Hilbert's assistant.

I am very pleased that my books about David Hilbert, published in 1970, and Richard Courant, published in 1976, are now being issued by Springer Verlag in a single volume. I have always felt that they belonged together, Courant being, as I have written, the natural and necessary sequel to Hilbert the rest of the story.

Hilbert's interests had moved away from mathematical physics by this time and he did not take any more than a passing interest that Courant was writing the text. In 1925, with Friedrichsas his assistant, Courant began work on a second volume of Courant-Hilbert. By 1928the new Mathematics Institute, begun the previous year, neared completion.
