If you want to make your low-level deck as inexpensive and simple as possible, follow what I did! Which is to use 2 x 6 pressure-treated beams spaced 24 in. apart on-center. The support for these joists provided by concrete deck piers needs to be placed at least every 8 feet.

How to Build a Simple DIY Deck on a Budget

Buy low-maintenance building materials — vinyl or cementitious siding and metal roofing, for example. Even if they are somewhat more expensive at installation, they will pay for themselves in the long run as you won't have to repair, replace, or repaint. Collect salvaged materials from demolition sites.

Lower Cost to Build - 15 Construction Tips and Other Ways ...

You can easily make your own lawn patching soil by mixing sand and dry topsoil in equal parts of half-and-half, spreading the leveling mix into low-lying areas of the lawn. Some people also use compost, which is great for enriching the soil. Only add one-half inch of soil mix to the low spots at a time, leaving any existing grass showing through.

Fill Uneven Lawn Low Spots - How To Level A Lawn ...

Open your first credit card account. If you have already established some credit history, look for a card with a low spending limit, which may be easier to qualify for if your credit history is limited. Make small charges that you can easily pay off right away, and pay the balance in full every month.

How to Build Credit - Experian

Plan your layout. Avoid having downspouts pointed at the retaining wall and, if it's against the house, keep soil and mulch well below the siding. Your retaining wall design will determine how you mark the area. To mark a freeform layout, use a rope or hose to outline the shape. Then use a shovel to mark the outline.

How to Build a Block Retaining Wall - Lowe's

Make sure you check local building codes. If you are not 100% confident building a deck, Lowe's recommends that you hire a professional. Call 1-877-GO-LOWES or https://low.es/2C2x6Zm to learn more ...
