The Islamic ecotheology movement, which comprises Islamic ecological philosophy, Sharia-based environmental law and Islamic environmental activism, was initiated by Muslim academics and scholars, many of whom grew up in a predominantly Muslim country and later lived in - or still live in - Western countries.

Islamic Environmentalism: The Call to Eco-Jihad - Qantara.de

The ethics of consumption in islam, then, rests on three pillars. First, what is consumed must be lawful and whole- some. econd, one must give the poor their share in one's s wealth; money and good remain "impure" until what is owed upon them as zakat is paid. Finally, one is not permitted to be wasteful with one's goods.

Islam, Christianity and the environment

However, the informed Muslim can easily speak on Islam and the environment for a number of reasons. First of all, Islam is described in the Qur'an as the religion of nature. God declares: "Therefore, orient yourself, with all due sincerity and uprightness towards the natural religion; this is consistent with the nature He (God) has created in humankind.
