address, your CRM should automatically send him an email with a link to click — thus confirming the contact is valid.

Deploying Signup Forms to Gather Contact Info ... - dummies

Tickets can help you gather information for your CRM. Ticketing uses forms to track an “issue” that is created by filling out the form. This “issue” could be interest in your product, or it could be someone having a problem with a product you sell. In either case, you want a person from your company [...]
