Sight reduction - Wikipedia

Admiralty Sight Reduction Tables. Admiralty Sight Reduction Tables are split up into three volumes which can be used with The Nautical Almanac designed to permit rapid position fixing by celestial means. Volume 1 contains the altitude to 1' and true azimuth to 1° for the seven stars most suitable for finding your position with a sextant, for the complete range of latitudes and hour angles of Aries.

Table 2 provides for this correction. It takes a couple minutes per sight, or until the stars disappear in the morni. Use of Vol. From Table 5 the correction for precession and nutation is found to be 1 mile in direction T and is to be applied similarly. So we will chose those three stars to "take sights of" for this practice with Vol 1.
