The Asian Financial Crisis Origins

The 1997-98 Asian financial crisis began in Thailand and then quickly spread to neighbouring economies. It began as a currency crisis when Bangkok unpegged the Thai baht from the U.S. dollar, setting off a series of currency devaluations and massive flights of capital.

Asian financial crisis | Causes, Effects, & Facts | Britannica

What has been called the Asian crisis followed a prolonged slump in Japan dating from the early 1980s and came after the Mexican currency crisis in the mid-1990s. Thus, the Asian crisis became a major policy concern at the International Monetary Fund as well as among developed countries whose cooperation in dealing with such financial crises is necessary to maintain the stability and efficiency of global financial markets.

The Asian Financial Crisis: Origins, Implications, and ...

The Asian financial crisis, like many other financial crises before and after it, began with a series of asset bubbles. Growth in the region's export economies led to high levels of foreign direct investment, which in turn led to soaring real estate values, bolder corporate spending, and even large public infrastructure projects. Heavy borrowing from banks provided most of the funding.
