Tools Textiles And Contexts Textile

This is highly pertinent as textile tools
often constitute the single most
important and plentiful type of evidence
for the various stages of textile
production in the archaeological record.
The combination of experimental
archaeology, analyses of textile tools
and find contexts allows for a discussion
of the nature of textile production at
different sites, regions and time periods.

standardised, industrialised, centralised production, on the basis of a division of labour.

Tools and Textiles - University of Copenhagen

The Tools and Textiles - Texts and Contexts program analyses and discusses the parameters for and the impact on society of the development of this intensive, industry-like production. We aim to reveal how tools and technology developed to meet the new demands. In many previous studies the approach remains descriptive.
