Navy COOL Summary - HT-Hull Maintenance Technician

Sound signals used on the waterways are like the turn light indicators used to signal intentions on the highways. Sound signals are also like an automobile's horn used to let other drivers know you are near or to alert them of danger.

Common Sound Signals - Boat Ed

THE ENGINE COMPARTMENT Next we move into the engine compartment, my favourite place and the most complicated area of any boat. On a simple sailboat installation I will just sit and look for about 5 minutes before I start to narrow things down.

A car (or automobile) is a wheeled motor vehicle used for transportation. Most definitions of cars say that they run primarily on roads, seat one to eight people, have four wheels, and mainly transport people rather than goods.. Cars came into global use during the 20th century, and developed economies depend on them. The year 1886 is regarded as the birth year of the modern car when German ...
