In-wall air conditioners must be vented through an exterior wall, so make sure the inside of your wall is clear of any plumbing pipes or electrical wiring. Air conditioner wall units also need to be installed with a wall sleeve - either a through-the-wall sleeve or a slide-out chassis - because an exterior wall cannot support the weight of a unit by itself.

Overall Efficiency

<p>Efficiency within a model group will tend to vary by the size (capacity) of the unit.

Some products, like furnaces, may also be affected by installation orientation (horizontal, upflow, or downflow) or even by the nozzle used in installation, as is the case with boilers and oil furnaces.
